Experiences

Digital Forensics Analyst

2024 - now

The Crime Lab

Cybersecurity Tutor

2024 - now

Software Developer

2022 - 2023

Practical Training

PROJECTS

Homomorphic Encryption in Cloud Forensics - Master's thesis on the role of homomorphic encryption in enhancing the digital forensics process in the cloud.

Digital Forensics training exercise - Creation of a digital forensics training exercise for my thesis by the time in University. On this exercise, I make a forensic analysis and investigation by building a case that reveals the suspect and important evidence of him.

Tilderist - A website that designed to offer to companies, mostly startups, a legal document automation tool that generates Privacy Policy, Terms of Use and Cookies.

SKILLS

Risk Analysis
